Hearing on the final passage of an ordinance entitled: "A supplement to an ardinance entitled: 'An Ordinance providing for the regulation and control of vehicular traffic and the parking of vehicles in certain streets of the City of Jersey City and providing penalties for the violation thereof,' passed August 10, 1926," having been adjourned and continued to this time and place for further consideration, the City Clerk read the public notice and the ordinance and then called for anyone who might desire to be heard either in favor of or against the final passage of said ordinance.

By Counsellor Edward Dorton:

If your Honor please, we appeared at the last meeting. We had about 100 representatives of the Hudson County Garage Men's Association. The Hudson County Garage Owners' Association is interested in this ordinance, but frankly, their interest is a selfish interest, because of the fact that they have a large investment which is being endangered by the fact that there is no ordinance prohibiting night parking. We have an assessed valuation of the garage owners of about four million dollars. We have a capacity of about eleven thousand cars. The fact is that as soon as the warm weather comes, at least half of the cars, that is our experience, are withdrawn from the garages and, the garage owners suffer from that. Of course, they are interested in the passage of that ordinance. That is really the reason that I appear, but it would seem to me that the passage of this ordinance should depend on broader grounds. The ordinance should be or should not be, in the judgment of the

Commission whether this ordinance tends to benefit or protect the City. There can be no question that night parking constitutes a hazard in the case of fire. In addition to that it constitutes a danger to the vehicles. On those grounds we believe the ordinance should be passed. We simply want to appear here to explain to the Commission that we are interested because of the fact that we have a big investment which we want protected. But we say it should be passed because it is for the benefit of the City.

The City Clerk then read two protests as follows:

Local 526, Musicians Protective Union, comprising 850 members, who are required to work five hours at affairs, and the members would not be permitted to park their cars.

Wm. J. Howell, stating that the ordinance is too drastic, especially for those who can ill afford a garage at these times and would deprive the owner from giving his family a little pleasure.

By the Mayor:

Who do you represent?

By Mr. Dorton:

The Hudson County Garage Owners' Association.

By the Mayor:

How are we ever going to get by with an ordinance such as this? We are going to throw Jersey City into a riot.

By Mr. Dorton:

The ordinance, as I understand it, permits four hours parking up to two a. m. and one hour after two a. m. It would seem to me that it would answer the second letter.

By the Mayor:

It has been the policy of this Commission not to cloak the police with such power as that. We adoped an ordinance some years ago closing the barber shops with the understanding that the police were not to interfere. If they wanted to make a complaint they would have to go to the Court and make it themselves. The police were not to interfere. We could not pass an ordinance like that. We would have thousands of our citizens haled into the Courts every night. Can you picture the Police Department going out tonight and suumonsing every citizen into Court. Let us take it after twelve o'clock, the police going out at night and bringing these citizens in. The people of our City are being kicked around enough. I am not going to be a party to those things. Let us do something that will not annoy them. We are passing too many laws, and there are too many laws and restrictions. The sooner we get into our heads that we must give the people an opportunity to live, it will be far better. They do not elect us to hamper them or abuse them. I don't like that idea. You have these people summoned to Court every night. The people with a small home, paying off their mortgages. Where are they going to park, in garages paying thirty dollars a month. I will not be a party to that. If we are going to start something like that, where are we going to land. We would be condemned by every man and woman in Jersey City. I think it is unfair for the garage owners to come here and ask us to do that. We cannot force them into garages.

By Mr. Dorton:

No, sir, that is not what we are doing.

By the Mayor:

If we do not permit these people to stay in the street, where are they going? They cannot go into their backyards. They are compelled by this ordinance to go into Court. You are sending us out as an agency.

By Commissioner Beggans:

If you pass this ordinance we will have to enforce it on everybody.

By the Mayor:

I can see a bad situation coming up on this. It would be a bad thing. Cars are luxuries. People look upon them as luxuries.

By Mr. Dorton:

The sum and substance of the whole thing is whether the streets are meant for night parking.

By the Mayor:

That is alright coming from the people themselves, but coming from the garage owners it does not look good.

By Mr. Dorton:

Of course we are not the moving parties in this. We are simply appearing to explain our side of it.

By the Mayor:

You are asking us to take the Police Department to act as agents. The Court advises them to keep off the streets. They are going into your garages. They cannot afford it. They must sell their cars. A man buys a little car for three or five hundred dollars to take his family out. That is not fair and it is not the right procedure. That is the way to ruin government. We are here representing the people. We have got to cater to their wants. You can readily see our position. Commissioner Beggans, have you ever made a survey of the cars in the streets at night?

By Commissioner Beggans:

Yes, sir, there are thousands of them.

By Mr. Sol Pearlman, 115 Harrison Avenue:

In June, 1930, we took a survey. We took it between the hours of two and six a.m., covering every section of the City and we counted approximately three thousand cars on the streets of Jersey City. We made the survey for two nights.

By the Mayor:

How could you make a survey of the streets in Jersey City in two nights?

A. We worked it in teams.

Q. You would have to have an army of men to do that.

A. Several of our men were picked up by the Police Department, who did not know what the men were doing. We have quite an organization and they all volunteered to do it. The Saftey Council has the figures.

Q. You can readily see our position, it is a bad precedent to set.

A. There are plenty of parking spaces that are charging $1.00 a week for storage.

Q. Let them go in if they want to. This is a free country. They are paying taxes for the streets. They feel they have a right to go out and stay on the streets. I do not see why we should have the right to deprive the people from parking on the streets.

A. We must admit that it is a hazard.

Q. If we are going to hide behind the fact that it is a hazard, I don't see the reason for it. It is alright for you people, but we are here and must bear the brunt.

A. There are approximately 21,000 cars registered in Jersey City and if only 3,000 park on the streets, you see that it is a small majority doing that.

Q. What are you worry about?

A. There is enough cars on the streets to affect our industry.

Q. Don't come into the Commission and tell us that it is civic spirit. It is a matter o dollars and cents. We are here for the people, you are here for business. It is a case of two hundred owners against 300,000 citizens. You want us to go out with the Police Department and drive those three thousand cars into garages or parking stations. I think it is a serious thing to our citizens. You cannot regulate our people by laws. We have been cursed with this damned old prohibition thing. Give the people their rights and liberty.

A. Only fifty of the cars had their red lights on.

Q. I am talking for myself and I will not vote for it. I don't think it is right to some poor man or woman who owns a little car and have them summoned to court.

A. There are plenty of empty lots where they can store for one dollar a week.

Q. That is a matter for them to decide.

A. We are a four million dollar industry in this City.

Q. You are discussing with us now a five hundred million dollar industry, that is what Jersey City is, probably more.

A. We are discussing three thousand car owners.

Q. Let me say this to you. I don't think it is just and I think it is un-

American for this Board to sit here and pass ordinance that requires all garage owners to drive cars off the streets and into their garages. I don't think this Board ought to be a party to such dealings as that. I am against the Police being given power in that respect. I want them to keep away from the business people of our city and the people in general of our city. They are being punished enough, walking into a little store and pushing them around and kicking them around. There is too much of that. We are living in peace and quiet and we don't want to disturb them.

A. The biggest violators are apartment house people.

Q. How are we going to induce peope to come in here with big apartments if we are going to abuse their tenants.

A. When a man builds an apartment and rents the rooms, he is not given parking privileges in front of his door. We are not asking for anything that is not permitted in other cities.

Q. But we cannot permit a policeman in front of the door for the purpose. Commissioner Beggans adopted a parking ordinance. This Commission went over it for months. We were fearful of that. We cannot be browbeating them for overparking 15 minutes. We cannot tolerate that. I would reprimand a police officer for bringing in our citizens for such small violations. It is alright for speeding, they have a right to bring them in.

By Commissioner Beggans:

It is very seldom that a man is brought in for overparking.

By the Mayor:

I have always been opposed to giving the Police power over our citizens in such small matters. The wholesale butchers came down, the grocers came down and every other store keeper came down. They wanted us to put a policeman in front of every door. We cannot do that. This is not Russia. Every family in Jersey City, their only hope and desire is to own a little car. They cannot afford to pay twenty or thirty dollars for a garage. They could pay $1.00 a week for an open garage space. If they park in front of the door, they would be arrested. Where we would want to help you otherwise, we cannot be a party to that. I would like to hear from some of the other members of the Board.

By Commissioner Potterton:

My own opinion is that this is at least an inopportune time to bring it up. Every man who leaves his car, I would say he does not do that only for the reason that he cannot afford the garage the apartment house proposition is brought up—where apartment houses are thickest, the garage facilities are the least. Apartment house tenants must walk back a great distance from the garage. I think at present time we should not interfere with the people who are trying to get a little fresh air through the ownership of an automobile.

By the Mayor:

It would be very heart rendering to me to see fifty or 100 of our citizens summoned to court nightly.

By Commissioner Beggans:

I move you Mr. Mayor that the ordinance be rejected at this time.

I second the motion.—Carried.

HEARINGS

Hearing on the application of Jos. Italiano for permission to erect a two-story brick addition out to lot line in front of dwelling at 32 Westervelt Street, having been adjourned and continued to this time and place, the City Clerk called for anyone who might desire to be heard concerning the application. No one appeared to be heard.

Commissioner Beggans moved that the hearing be adjourned and continued to Tuesday, June 16, 1931, at 11 A. M., Daylight Saving Time, in the Assembly Chamber, City Hall, Jersey City, N. J.

Seconded by Commissioner Potterton and carried.

At this time Mr. Arthur H. Nelson appeared before the Board in connection with his application to operate a bowling and billiard academy at 260-2 Central Avenue.

By the Mayor:

That is a matter that would have to come up at a public hearing.

The City Clerk read the police report on the investigation made by the Police Department which stated that there are two objectors who claim that they will be inconvenienced by having to remove their cars which are parked in front of their premises; that if the Brunswick Balke Collender Co. operate the place it would not be objectionable, but if they sublet the premises then the character of the lessee should be investigated.

By Commissioner Potterton:

At the present time it is used as a garage. It has not proven to be profitable venture. Now they want to turn it into a billiard academy.

By the Mayor:

Are they going to alter the building?

By Mr. Nelson:

It will be a slight alteration as far as the stores are concerned.

Q. Who do you represent?

A. The Brunswick Balke Collender Co. They have two clients for the place and they have authorized to lease the same if the City gives permission to operate the establishment.

Q. How is it that at the time the last application was filed by you, the owner stated that he did not know anything about it.

A. He knew more about it than he said.

Q. After we had your application, the owner of the building filed a similar application. He told us that he did not know anything about it. What is the status of this.

A. I submitted the location to the Company. They looked at this location and stated that it is ideal. The question is whether the City will permit that business in that location.

Q. I cannot see any objection to that location. It there any objection on the part of the Commission?

(No objections heard).

Q. Who is the owner of the property?

A. The Knodel Estate.

Q. I don't want any repetition of the last application.

A. I am negotiating with the executors of the estate.

Q. This application before us, is that in your name?

A. Yes sir.

Q. That will not do.

A. All I want to know it will the City permit that business there.

Q. Let the owner come in and we will grant it if the application is reported on favorably.

A. I may come in myself.

Q. You will have to show us the lease for the premises in your name, and the Board will grant it.

Mr. George Corrado appeared before the Board and stated that he represents a number of property owners in the Lafayette section of the city who filed a petition for a sewer in Woodward Street. He stated that the odors are very bad and every time there is a rain storm, the houses are flooded.

Commissioner Fagen stated that it is the old Carteret Sewer; that the Lehigh Valley Railroad Company filled up the old canal. Today, with that closed up, when it rains they are flooded four or five feet, so that in the basement they cannot live; that is disgraceful; that there is no means of remedy, only getting the sewer or soaking away of the sewerage until the next rain storm; that last week he appeared before the State Board of Health on the Morris Canal matter in Greenville and incidentally, it was brought up about something that should be done by the city on the complaints turned in by the inspectors; that he assured them that the local Board of Health would take it in hand; that he does not know what remedy can be given outside of building the sewer; that it is a big project; that it is a local improvement and is assessable; that it runs all the way from Bramhall Avenue through Halladay Street, Pacific Avenue, Carteret Avenue and Claremont Avenue; that it includes a light manufacturing district.

The Mayor asked Commissioner Fagen what the assessment would be on Mr. Corrado's property and he replied that it would probably be about $200.00.

The Mayor then asked the Commissioner if there is any immediate relief that can be granted temporarily. He stated that it could be constructed at much less cost now than last year.

Commissioner Fagen agreed to make an investigation and advise the City Clerk, so that he can in turn keep in touch with the property owners.

Counsellor Eza Nolan appeared before the Board and presented a written protest signed by residents, property owners and business men of Monticello Avenue, Brinkerhoff Street and Crescent Avenue, against the maintenance of a store or stand by a certain individual at the intersection of Brinkerhoff Street and Crescent Avenue, opposite Lincoln High School. He stated that apparently the owner is on public property and started with a small apple stand first and without securing any permit erected the store.

The Mayor stated that such a condition cannot be permitted; that it has been constructed without a permit in violation of the ordinance. He then advised Mr. Nolan to consult with the Building Department, who shall make out a complaint and send an inspector up to make the necessary investigation; that he would not advise arresting the owner, but just bring him in on a summons and have the matter taken up.

FRANCHISE HEARINGS

This time and place having been fixed by the Board of Commissioners and public notice advertised as required by law for the purpose of holding a public hearing on the application of Beck Hazard Corporation for premission to erect and maintain a marquise awning in front of premises over the sidewalk at 146 Newark Avenue, the City Clerk called for anyone who might desire to be heard.

Mr. Ward Martin and Architect A. Davis, appeared for the application.

Attorney Wm. C. Egan representing Wall, Haight, Carey and Hartpence, appeared for the Finlay Strauss Company against the application.

Bernard Rosenblum, owner of 132 and 148 Newark Avenue—C. Harz, owner of 140 Newark Avenue—Oxford Clothes Co. by B. Rubleman, lessee of 144 Newark Avenue—Herman Rausch, owner of 150 Newark Avenue—Kaufman Hat Co. by B. H. Kaufman owner of 142 Newark Avenue and Mr. Wiesen, manager, Finlay Strauss Company, 148 Newark Avenue, appeared and objected to the proposed marquise.

The City Clerk read a communication from the Brunton Piano Co., by A. Brunton, President 116-118 Newark Avenue, objecting to the proposed marquise.

The Board discussed the matter at length and in conclusion Commissioner Quinn suggested that the applicants consider the erection o an electric sign instead of the marquise, stating that while the Board is desirous of helping the business men, everybody must be considered and the fact that so many of the business men on that particular block are objecting indicates they do not want the marquise erected; that he would suggest the hearing be adjourned to the next meeting so that Commissioner Fagen may be present in view of the fact that he submitted a resolution to the Board granting a temporary permit to proceed with the work pending final disposition by the Board, and so moved.

Seconded by Commissioner Potterton and carried.

By Commissioners Beggans for Commissioner Fagen:

Resolved, That the hearings on the following described applications:

At this time Bernard Green, Attorney, apeared gefore the Board in connection with the application of the Hudson Royal Restaurant, Inc., for permission to permit music and dancing at 912 Bergen Avenue, Jersey City, N. J.

By r. Green:

As the petition sets forth, your applicant is conducting a very lavish and beautiful restaurant in the heart of Jersey City. The history of this restaurant is rather unfortunate. The company has invested $175,000 in order to fit the place for dancing and music. The people owning this retaurant, have a number of restaurants and all are successful. In this situation, the first corporation went into the hands of the receivers. They were unable to have dancing and playing of music. By order of the Court of Chancery, the restaurant was sold to the present owner. We submit that the management has maintained a highly respectable place which attracts the best citizens of Jersey City and affords them an opportunity to dine and dance in surroundings which are highly enjoyable. There is nothing like it in the City of Jersey City, therefore the citizens of Jersey City are compelled to go to New York and Newark for this amusement. The management undertakes to be extremely careful in the conduct of this business and will at all times maintain the business which is attractive to the best citizens of Jersey City. It will be a distinct benefit to the City and we submit it would afford them a place of entertainment which they need greatly. There is nothing incoherently wrongful in dancing and under the circumstances we respectfully pray that you grant us a permit authorizing the playing of music and dancing.

By Commissioner Quinn:

Q. Do you represent the new owner?

A. Yes, sir.

Q. Has the tangle been all straightened out?

A. It is being straightened out.

Q. I would recommend that the matter be laid over until next meeting for the consideration of the full board.

Thereupon Commissioner Quinn moved that the application be laid over to Tuesday, July 7, 1931, at 11 A. ., Daylight Saving Time, in the Assembly Chamber, City Hall, Jersey City, N. J., for the consideration of the full board.

Seconded by Commissioner Beggans and carried.

Hearing on the application of the Beck Hazard Corporation for permission to erect a marquee in front of their premises, 146 Newark Avenue, having been adjourned and continued to this time and place, the City Clerk called for anyone who might desire to be heard concerning the application.

Counsellor Dwyer of McDermott, Enright and Carpenter appeared with Architect A. Davis and Mr. Martin for the application.

The following persons appeared in opposition to the proposed marquee

Counsellor Egan of Wall, Haight and Carey apeared with Mr. Weisen for Finlay-Straus Company, 148 Newark Avenue; Mr. A. J. Weiss, representng the A. S B. Realty Company, 138 Newark Avenue; Bernard Rosenblum, owner of 132 and 148 Newark Avenue; H. Rausch, owner of 150 Newark Avenue; S. Solomon, representng A. S. Beck Shoe Corporation, lessee of 138 Newark Avenue; P. J. McClincy, representing Kaufman Hats, owner of 142 Newark Avenue; B. Rubelman, representing Oxford Clothes Shop, lessee of 144 Newark Avenue.

By the Mayor:

Proceed with the hearing.

By Mr. Dwyer:

If your Honor please, and gentlemen of the Commission, I represent the Beck Hazard Corporation, that operates a shoestore at 146 Newark Avenue, Jersey City, on the northerly side of the street, between Grove and Erie Streets. The marquee will be illuminated and project over the sidewalk. The Beck Hazard people have gone to an expense of approximately $3,500 in the preparation of this sign and are in a position to erect it if the Board grants that application. We respectfully urge that to deny the right to erect the sign would be real discrimination to Beck Hazard Corporation which operates five or six stores here and has a very large investment in the City. There are two other marquise signs on the block. One about two doors west of their property, the Remsen Clothes Shop.

By the Mayor:

How long has that been up?

A. About two years. I understand also that there is a similar marquee in front of Heyman Furniture Store, about four doors west. I understand there is one across the street a little to the east.

By the Mayor:

Have you any photographs?

A. I have photographs of the type that we intend to erect. There is one in front of the Mullins Furniture Store on the other side of the street. I understand there is one between Grove and Henderson Street on the northerly side of Newark Avenue in front of the Globe Furniture Company store. I believe that the real objection to the erection of the sign by the Beck Hazard Shoe Corporation is that it firstly shuts off the light and obstructs the view of the Finlay Straus store. We respectfully submit that the sign we intend to erect is well above the entrance of the Finlay Straus store. If it has any effect it will do more to set it out in bolder relief than at the present time. I am informed that the decoration of the Finlay Straus store is flat against the wall. With the aid of the illuminated sign alongside of the Finlay Straus store, it will be thrown into bolder relief. It will stand out in particular in view of the fact that it will be well above the entrance of the Finlay Straus store. With regard to the investment of the Finlay Straus store and fitting up the establishment in present condition I am informed that it is somewhat in the neighborhood of $15,000. Our people, exclusive of this sign, have invested about $8,000 in placing their establishment in good condition. We respectfully urge that your Honor grant us the right to proceed with the marquee.

By the Mayor:

Anybody wish to be heard in opposition?

By Mr. Egan:

I am appearing for Finlay Straus, who are next door neighbors of the Beck Hazard Shoe Company. I respectfully urge upon your honors to consider carefully just exactly what Finlay Straus outlaid in funds in order to put their store on a high plane as stores go in Jersey City as it exists today. Fifteen thousand and some odd dollars for the front alone. The entire store is an investment of close to $40,000. It is the finest store of its type in this City and State and I dare say in the country. It is a store that is a credit to the City. I respectfully submit that if the erection of this marquee would be to make the Finlay Straus store stand out in bolder relief because the light reflecting on it, surely the Finlay Straus people would have looked into this proposition and while spending so much money and if the addition of more lighting in front of their store would advertise and produce and attract the public, they surely would have considered that and placed that lighting there. The way the store is set up it is set up in such a way that the black and light colors, to place anything alongside of it would be to shadow it. If the lights were there, it would show up in a way that it is not desired to show up. These people have gone ahead and erected a store that is a credit to the City. As to the spending of money by Beck Hazard, with respect to the erection of the marquee, they took it upon their own head. The loss falls on their own hands They have no right to do so and use the City's property unless an ordinance is passed by the City. We have no objection to the use of their own property or property that they have leased, but what we are objecting to is the indiscriminate use of the property of the public at large. There are other property owners who can explain various other parts of the situation and I will rest with those few points in your hands.

By Bernard Rosenblum:

If the Beck Hazard Company erect that marquee it would cause other business people to erect marquees and in that case nobody would have the benefit of the marquee. We urge you upon the evidence shown to consider what you think is best in this case.

By Mr. S. Solomon (A. S. Beck Company):

I represent the A. S. Beck Realty Company, owner of 138 Newark Avenue. Our tenants are the A. S. Beck Shoe Corporation. I think the street is entirely too narrow for a marquee. We are in a position if the other people erect a marquee, we will have to give the A. S. Beck Shoe Corporation consent to erect one also. I don't think that anyone will obtain the advantage of advertising if everyone gets it. I think it is best that everyone stick to signs and leave the marquee off the streets.

By the Mayor:

Is the Commission familiar with the type of sign that is in dispute here? It means the extending over the entire sidewalk. Suppose there is an application from every owner to put them up. I can readily see where there is a lot of merit in the Counsellor's objection, particularly from the man next door. If he is west of this building, nobody coming from the east can see his store at all until they get opposite, because that is quite an obstruction. The same thing applies to the other man coming from the other direction.

By Commissioner Beggans:

There may be some store owners who are not in a position to erect such a marquee.

By the Mayor:

I would like the Commission to hear the Chairman of the Board of Adjustment about what the future holds if this condition is granted.

By Mr. Glavin (Chairman, Board of Adjustment):

I think the erection of a marquee like Green's Furniture Store, which takes up the entire block and where the marquee just covers the entrance of the building, there are no objections, but where it is going to take up the entire building where business is all along the block and every business man wants a marquee, it will be a solid block of marquees. If there was a marquee on either side of the Beck-Hazard store nobody could see the marquee of the Beck-Hazard Company. I don't think that in this particular case it should be granted.

By the Mayor:

In your judgment is a marquee appropriate where there is 75 feet front, taking up about 15 feet of that front for the marquee, so that there is 30 or 40 feet on each side of the marquee. Would that be just to the man next door?

A. Yes sir.

By Mr. S. Rausch:

I am the owner of 150 Newark Avenue. Right along side of me is the Remsen Clothes Shop. They put up a marquee about two years ago. The business did not go well and an auctioneer took over the store and covered the marquee with oil cloth signs. It is a terrible condition. If this marquee is now permitted, I will be fenced in on both sides. You will not be able to see my building at all.

By Commissioner Fagen:

How long have you been in business on Newark Avenue?

A. About 38 years.

By the Mayor:

Now the Commission is familiar with the situation. I don't like to use the power of this Commission to destroy people's property. As the avenue is now constituted, your business has the same opportunity as the others have to advertise. Has the Commission anything to say on this matter? It is a very important question to establish a ruling on these particular business thoroughfares. It is our final ruling. We cannot vary from it. Other than what Mr. Glavin says, if property has a 150 or 200 foot front and they want to establish a sign of this kind, it is permissible. Where a man has only a 25 foot front, and is going to devour the man next to him, it is a serious situation. I am going to recommend that this be denied unless the Commission has some suggestions.

By Commissioner Beggans:

Would you recommend the erection of the marquee on a 75 foot building, all the way to the curb?

By Mr. Glavin:

Not all the way to the curb.

By the Mayor:

That depends on the width of the sidewalk.

By Mr. Davis:

They generally keep them back about one or two feet from the curb.

By the Mayor:

We have no objection to your sign, but when these people appeal to us for protection against having their property destroyed, that is a serious condition. Suppose the man next door is not wealthy enough to put up a sign also?

By Mr. Martin:

I presume we have three or four dozen marquees scattered throughout the metropolitan district. A. S. Beck must have at least that in the metropolitan district, and as yet I don't think we can find any store that we have damaged where they are erected. Some time ago a case like that came up in Paterson, and the Mayor said that he thought if there were more marquees in Paterson the city would be better off. The party making the objection, Finlay Straus, they are not our competitor at all. It is a different kind of business. To me, the nature of their business is not affected by the marquee. I don't know of any jewelry store that has a marquee out. You can go through the metropolitan district and you will find that most of the shoe stores have the marquee. As far as Newark Avenue, if the Commission sees fit to prohibit any further erection of a marquee, it is alright with us. Apparently, it appears to me, that in view of the fact that other people have been erecting them, that the privilege be granted to us.

By the Mayor:

This is the first time that there has been any objection. In other cases it is evident that the marquee was agreeable to them. Where people make objection, they must be sustained. The people on the east and west side of your property would have a great influence on this Commission. I can readily see where you are pushing the men alongside of you in the dark. How long has A. S. Beck leased their store?

By Mr. Solomon:

For twenty-one years.

Q. Are they objecting?

A. This is their attitude. If these people put one up, they will want a marquee. When they altered their building, the A. S. Beck Cmpany took into consideration that the street like Newark Avenue was entirely too narrow. We are on the same side as the Finlay Straus store. They are No. 146 and our building is 138. If they put up a marquee and we have a marquee, everyone will be sandwiched in.

By the Mayor:

Who is next door?

By Mr. Weisen (Finlay Straus) and Mr. Rubelman (Oxford Clothes):

Q. And you object.

A. Yes, sir, very strenuously.

By the Mayor:

The people right adjoining are the onse who are to suffer the most. If these people consented, this Commission would see the way clear to grant it. They are the ones who are going to be hurt.

By Mr. Weisen:

We will be sandwiched right in between the Remsen and this one. I think a store like ours, the Finlay Straus, is a credit to the City.

By Mr. Dwyer:

We appreciate your honor's anxiety to do the right thing in this case. We would rather not have it depend upon the opinion of the adjoining people, there might be some personal animus. If your honor's decision depends upon the majority of the store owners and you denied the right to erect the sign, it is alright, and we would rather have the signs denied for that reason.

By the Mayor:

Why should we let some people a block away come in and object. It is the people right next door who will suffer. For us to put it up to the majority would not be fair for us to consider.

By Mr. Dwyer:

I mean in the immediate neighborhood, such as the class of objectors that appear today. What we would like to prevent, perhaps in six months from today, A. S. Beck would come along with an application and get the consent of the two adjoining property owners and get the permit and the rest would be denied.

By Mr. Solomon:

We want to establish this precedent here today. If this is denied, we have no intention at any time to erect a marquee.

By the Mayor:

There is nothing further that can be said. I presume we will have to treat any application that comes in individually. We will not discriminate against anyone. The Clerk will call the roll on the denial of the application and so moved.

Seconded by Commissioner Beggans and carried.

Commissioner Fagen then moved that the hearing on the foregoing application do now close.

Seconded by Mr. Quinn and carried.

Mrs. Clarke stated that the place was formerly a one-car garage and now it is used for a work shop.

The Mayor advised that no one has the right to infringe on anyone else's property. He then summoned Inspector Boyle, of the Health Bureau, and directed him to make an investigation, and also moved that the petition be referred to Director Beggans for investigation and report.

HEARINGS

At this time the City Clerk called the application of the Hudson Royal Restaurant, Inc., for permission to have music and dancing at 912 Bergen Avenue, Jersey City, N. J., which had been referred to the Corporation Counsel by the Board at the meeting held July 7, 1931.

The City Clerk called several times for anyone who might desire to be heard concerning the application and no one appeared for or against said application.

The City Clerk then read the following communication from the Corporation Counsel:

"Mr. Edward J. Holland,
City Clerk,
Jersey City, N. J.

"Dear Sir: I have copy of resolution by Commissioner Fagen, referring to me the application of the Hudson Royal Restaurant, Inc., of 912 Bergen Avenue, Jersey City, for permission to play music and dance in said restaurant.

"This matter is under the ordinance of December 16, 1930, and is discretionary with the governing body. The ordinance provides that it shall be unlawful to have music or dancing in a public restaurant in Jersey City unless a license so to do is granted by the governing body.

"This regulation has been effectual since the passage of the ordinance on the date above mentioned.

"Yours very truly,
(Signed) "THOMAS J. BROGAN."

Thereupon the City Clerk read the following communication from the Mayor:

"The Board of Commissioners of the Mayor and Aldermen of Jersey City:

Dear Sirs—At our last meeting, held the seventh instant, application was made to this Board for permission to conduct what is commonly known as a dance hall at No. 912 Bergen Avenue, Jersey City. This application is before us for action today.

I believe the application should be denied and shall be recorded against granting it.

There is, in my opinion, no public demand in our City for resorts of this character. Our people find adequate and ample recreation in other channels of amusement which are free from those risks of crime and immorality which these places breed.

While there are some who think that

these resorts can be conducted in a strictly lawful manner and on a high and healthy moral plane, it has always been, and still is, my personal conviction that such places constitute a source of danger to the morals of the young men and women who frequent them. I am not alone in this opinion. Only this morning, the public press carries the report of the Committee of Fourteen, in the great City of New York, regarding these places. This report portrays the evils of dance halls and urges their suppression. Yesterday the Police Commissioner of New York was compelled to command the appearance before him of the proprietors of three hundred of these resorts and impress upon them that their lawbreaking must cease and decency be upheld. He threatened to abolish them if his orders were not heeded.

We have the power to prevent such resorts from obtaining a foothold in this City by voting against the application now before us. We have the authority to do so under and by virtue of the amended ordinance which was introduced at our meeting of December 2d, 1930, and subsequently passed. This ordinance was enacted pursuant to Chapter 152 of the Laws of 1917, commonly known as the Home Rule Act and the several supplements thereto and amendatory thereof, and makes it unlawful for any person, persons or corporation to own, control, operate, manage, lease or rent any public place of the character contemplated in this application unless special license to do so is given by the Board of Commissioners of the Mayor and Aldermen of Jersey City.

I shall not only have my vote recorded against this application, but I invite my fellow Commissioners to join me in so doing.

It has been our proud boast that our City, from the point of view of moral cleanliness, ranks with the highest among the cities of this country. We have always hitherto made this boast good and I believe we should maintain it. I am confident you will help me to continue this course. I am,

Very respectfully yours,
(Signed) FRANK HAGUE,
Mayor."

By Commissioner Potterton:

Mr. Chairman, it seems to me in view of the very clear explanation of his view by the Mayor and the fact that whatever progress has been made in Jersey City has been made under his leadership, I believe the suggestion is a wise one and it would be inadvisable to say anything that would not be in accord with his policy maintained in Jersey City for so long a time. Because of that I would move that the application be denied.

Seconded by Commissioner Beggans and carried.

By Commissioner Potterton:

Whereas, application having been made by the Hudson Royal Restaurant, Inc., for permission to authorize the playing of music at, and the dancing by patrons of the restaurant located on the second floor of premises known as No. 912 Bergen Avenue, Jersey City, which application was filed in the City Clerk's office on June 1, 1931; and

Whereas, said application having been duly considered by the Board of Commissioners of the Mayor and Aldermen of Jersey City, and after hearing all the parties desiring to be heard on said application, the Board of Commissioners of the Mayor and Aldermen of Jersey City having determined that the granting of the application would be detrimental to the good government, order and protection of persons and the property of its citizens, particularly in the neighborhood of Journal Square, where this restaurant is located; and

Whereas, the said Board of Commissioners having further determined that the granting of said permit would be contrary and against the public safety and prosperity of the muinicipality of Jersey City and its inhabitants; and

Whereas, the said Board of Commissioners having determined the granting of the permit to a restaurant in this locality would constitute a source of danger to the morals of the young men and women who would frequent the said restaurant and would bring into Jersey City the evils of dance halls and would be conducive to increasing law-breaking by individuals to the detriment of the public safety of the community; now, therefore, be it

Resolved, That the application of the Hudson Royal Restaurant, Inc., for a permit to permit the playing of music at, and the dancing by patrons of the restaurant located on the second floor of the premises known as No. 912 Bergen Avenue, Jersey City, be and the same is hereby denied; and be it further

Resolved, That no license be granted to the owners of the premises aforesaid.

Adopted.

At this time Inspector Boyle of the Health Bureau appeared before the Board.

By Mr. Boyle:

Mr. Mayor and gentlemen of the City Commission, there has come before the Health Department at various times in the past several years complaints from the residents of West Side Avenue, Fisk Street, Culver Avenue, Welcome Avenue and generally around that neighborhood. There is a petition containing names of 144 persons in my office who protest against the careless manner in which a rendering plant on Fisk Street is being conducted. There is noise from the plant nightly which disturbs the slumbers of these people and frequently obnoxious and offensive odors from the offal that is being discharged from the plant. We have received pledges from the owners that it would stop, but they were not kept, which compelled us last fall to summon them to court. Upon conviction there was a fine imposed. Still the conditions continued, despite the pledges made to my department. My object in speaking and addressing the City Commission is for the purpose of asking them to set a time and place for a hearing where they may listen to the protests of these people against the conditions that prevail there and summon the owners of this plant to appear here for the purpose of giving the people the relief they seek. I know personally their complaints are justified by the facts.

By the Mayor:

What are the complaints, Inspector?

By Mr. Boyle:

Fats, offals, meats and bones are brought in there and they smell offensively.

Q. When does this occur?

A. Various times, Mayor, throughout the day and into the night hours. I have found it there as late as half-past ten and eleven o'clock at night. A week ago Saturday night the conditions prevailed the entire Saturday and up until seven o'clock the following Sunday morning. All night and all day. I visited it twice.

Q. You are familiar with the odor?

A. I am. Last Saturday night I was unaccompanied, but I visited the place twice in response to telephone calls. The reason I could not be accompanied on the last visit is that it was Saturday night. Our men were off duty and not available. I know the conditions as they exist in this plant, but it is the residents who will testify the conditions under which they live.

Q. What is the procedure that you will recommend that will bring results?

A. The City Commission is the licensing authority for this company. They are functioning under a license that was issued to them and it seems to me that if this case comes before the Commission, if the facts justify it, the Board should act.

Q. I just want Commissioner Fagen, who is a lawyer, to justify it by law. In a great many instances different questions arose. For instance, I don't like the idea of these lawyers going into Chancery Court and restraining us. I think we should have the first say in Court on this question. I think we are just a little step ahead. When we revoke this license, he immediately goes into the court of equity and gets an order against us, making us the defendant. I wonder is it possible to make him the defendant and let the City of Jersey City take him to Court? I think we should adopt an entire different procedure. We should go to Court and restrain them.

By Commissioner Fagen:

You have the Courts prejudiced against the City as soon as you use the Police in the matter.

By Mr. Boyle:

I do think we are empowered ourselves to seek the injunction through the law.

By the Mayor:

What we will do is this. We shall set our public hearing. We shall have the representatives from our Law Department present and shall proceed with our public hearing and collect the necessary information for the Commission and then by resolution we shall direct the Law Department to proceed.

Thereupon the Mayor moved the adoption of the following resolution:

Seconded by Commissioner Beggans and carried.

By Mayor Frank Hague:

Resolved, that the complaints and protests made by residents in the vicinity of the Lincoln Park Products Company, at foot of Fisk Street, Jersey City, together with the reports of Inspector George Boyle, be filed and that the Lincoln Park Products Company, the owners and managers thereof, be directed, by the City Clerk to give notice to the said Lincoln Park Products Company, the owners and manager thereof, of a hearing before the Board of Commissioners of Jersey City, to be held in the Assembly Chamber, City Hall, Jersey City, on Tuesday, August 18th, 1931, at 11 A. HEARINGS

At this time Mr. F. Lindsey, 317 Sherman Avenue; Mrs. Leroe, 313 Sherman Avenue, and Mrs. Sack, 311 Sherman Avenue, appeared before the Board and presented a written protest signed by a large number of residents and taxpayers in the vicinity of 43 North Street (rear of 317 Sherman Avenue), protesting against the maintainance of a refreshment stand located at 43 North Street. Mr. Lindsey stated that he was informed a permit was issued by the City for a woodshed and that now instead of a woodshed it is used as a hot dog stand; that the section is residential and the residents are all opposed to this stand; that it is constructed of corrugated iron; that they have an ice box there and a lot of stock in the building.

Commissioner Quinn asked the objectors if they had ever appeared before the Board of Commissioners on this matter and they replied that they have not appeared previously but have complained to the Police.

In conclusion Commissioner Quinn stated that the protest will be referred to the Building Department for investigation and that if they find that the building is used for any other purpose than that for which applied, it will be stopped, and so moved.

Seconded by Commissioner Beggans and carried.

This time and place having been fixed by the Board of Commissioners by resolution for the purpose of holding a public hearing on the complaints and protests filed by residents residing in the vicinity of the Lincoln Park Products Company at the foot of Fisk Street, against the odors and nuisances created by the operation of said company's plant, the City Clerk advised the Board that he had forwarded proper notices to the operators of said plant by registered mail and that receipts of said delivery have been received.

Thereupon Commissioner Quinn declared the hearing open.

Counsellor Saul Nemser appeared for the Lincoln Park Products Company.

Counsellor Charles Rooney appeared for the City.

A large number of residents and property owners in that neighborhood appeared to supplement the written protest.

By Counsellor Nemser:

I have an application on behalf of the Lincoln Park Products Company for an adjournment of one week. I was called into the case only yesterday adn of course am not acquainted with all the facts. If the complaints of these people are well grounded, I wanted to do all I can to alleviate conditions.

By Commissioner Quinn:

Q. Are you the owner of the company?

A. I am the attorney for the Lincoln Parks Products Company.

Q. When were you acquainted with this protest?

A. All I know about it is that I was retained about half-past four last night. I understand there were complaints about obnoxious odors and nuisances. If the complaints of these people are true, I will do all I can to clean it up.

By Inspector Boyde (Health Bureau):

I feel that this hearing should go through in so far as possible this morning.

By Counsellor Rooney:

If the Board please, possibly accommodate Mr. Nemser and do all we can in justice to both sides, I don't think the City will have any objection to continuing the matter, but in the meantime these people, who are from the vicinity, property owners and tenants, I don't think they should be inconvenienced and brought back here. I think their testimony should be heard today and as many of them who want to come back may do so.

By Commissioner Quinn:

This thing has been going on for several months.

By Inspector Boyle:

At the last meeting of the City Commission a resolution was passed directing this hearing for today. They have received ample notice to confer with counsel or present themselves here today personally. I don't know what they have done. I think Mr. Rosengard will give you the date and show that they have had ample time to come in. I would ask that these people be not turned away from here without hearing.

By Commissioner Quinn:

We will proceed with the hearing and hear what they have to say.

By Counsellor Rooney:

The Law Department is simply here in advisory capacity to see that the proceedings go along with the proper legal manner.

By Mrs. McCormack, 93 Fisk Street:

We live next to the plant and the odors are so bad we cannot stand it. Through the Summer and hot weather the odors are so bad we have to close every window and door. My mother has been in bed for four or five months and she has got to have air and all day long we must close the windows and doors. We have asked them and have done everything to give them a chance to do away with the odors, but it seems it cannot be done.

By Counsellor Rooney:

Q. How long have you been in that neighborhood?

A. Almost thirty years.

Q. And your mother owns the property?

A. My brother.

Q. How long has this condition been going on down there?

A. A good many years.

Q. In addition to the odors, are there any sounds emitted from this plant?

A. At night it is a terrible noise. I don't know what causes it. The noise is awful.

Q. What time at night does that usually start?

A. I notice it around eight.

Q. And how long does it keep up?

A. One or two hours, perhaps three hours.

Q. How far is your home from this plant?

A. Not very far, about a quarter mile or less. It is the second house from there.

Q. About a city block from the place?

A. Not as far as that. About eight lots.

Q. Two or three hundred feet?

A. Yes, sir.

Q. Is this noise loud enough to keep your family awake?

A. Yes, sir. Surely. We have had trouble before and have given them lots of time. We are not trying to close the plant down. We are asking them to do away with the stench.

Q. What part of the day do you usually get that stench?

A. All day long. The only time we don't get it is when the wind blows down the bay.

Q. It usually blows toward West Side Avenue, from the bay?

A. Yes, sir.

By Counsellor Nemser:

Q. How long has that plant been there?

A. About eight years.

Mr. Baradino Pompeo, 69 Fisk Street.

By Counsellor Rooney:

Q. Mr. Pompeo, do you own property in this vicinity?

A. Seventy-five feet front.

Q. How far is that from the plant?

A. I should judge about 1,400 or 1,500 feet.

Q. How long have you lived there?

A. Eighteen years.

Q. During this time have you ever noticed any obnoxious odors from the plant?

A. All the time.

Q. Every day?

A. Not every day, but at night and when they work.

Q. They work practically every day?

A. Sometime they don't have the stuff.

Q. Is this odor noticeable in your home?

A. Certainly. Two weeks today I invited a couple of friends of mine to dinner and the stink was something awful and they commenced to look at each other. I said it is not the house that stinks and I took them outside and showed them the plant where the smell comes from.

Q. Does it make you sick to your stomach?

A. Yes, sir, it makes you sick and it brings all the flies and rats.

Q. Can you eat your meals in comfort?

A. No, sir, unless you close the doors. The smell makes you sick.

Q. About the noise?

A. When they work day time. I work night time myself on the drawbridge. I get the smell both ways.

Q. How far is the draw bridge?

A. About half a mile.

Q. And the noise and odor travel that distance?

A. Yes, sir. When they crush them bones. It is something awful. When the people are sleeping they don't like to hear that noise. It shakes the house.

Q. Does it shake your house?

A. It does not shake my house, but we are getting used to it. Sometime we cannot sleep.

Q. It interferes with your rest?

A. Yes, sir.

Q. Have you found that as a result of this odor that you have to close your windows in the sleeping rooms?

A. Certainly.

Q. How many days in the week does that exist?

A. I never mark it down. We have been fighting ever since the plant is down there and I said what is the use. The people tell us when they start the plant it would be a shoe factory and it is some shoe factory, believe me. They said only a lot of foreigners live around there. I am thirty years an American citizen and have five children born and brought up around there.

Q. Despite all these complaints the condition has not been bettered at all?

A. No, sir. I have spent every cent I have saved for the last thirty-five years. I work steady on the railroad.

Q. All your life savings?

A. Yes, sir.

By Commissioner Beggans:

Q. What other work do they do beside crush bones?

A. I don't know, I have never seen it. But they grind up everything that they get from the butchers.

By Inspector Boyle:

It is a rendering plant.

By Mr. Pompeo:

I have witness to the fact that last year after making complaints, the foreman in front of witness said that they will win out anyhow.

By Mr. Rooney:

Q. You say that rats and flies are in the neighborhood?

A. Yes, sir; through the whole neighborhood.

Mrs. Maria Strockmeyer, 75 Fisk Street:

By Mr. Rooney:

Q. Do you own property in the neighborhood?

A. I owned property for twenty years, 50 by 100. I have a two-family house and I have tenants and the tenants are sick and one of them had to be sent to the hospital. She could not stay in the house.

Q. The tenant was made sick from the odor?

A. She was sick to her stomach and had to go to the City Hospital. She just came out of the hospital about two weeks ago. The noise is in the evening and the morning.

Q. How far is your home, about one block away?

A. Yes, sir.

Q. Can you hear the sounds in your house?

A. Yes, sir. I could not rent it, I could not sell the house.

Q. Why?

A. On account of the smell and noise. Except the people who are living there and used to the smell, other people could not stay there 15 or 20 minutes. Nobody can stand it. I do not get so much rent and have a lot of expenses. I paid $600.00 assessment for the street.

By Commissioner Quinn:

What does your department think, Inspector Boyle?

By Inspector Boyle:

Of course, those people who have to live under those conditions can best explain to you what they have had to suffer these many years. They have made repeated complaints to our department. When we would go down later that condition had passed away. I circularized the people of the neighborhood and notified one hundred and eleven of them who signed the petition. This complaint is predicated upon the condition that I found and between six and nine o'clock Saturday evening, July 25. There was large quantities of crushed bones, fats and they were in sort of putrefaction. The cooking of the raw materials in the quantities gave forth over an area of 1,200 feet a very offensive odor. The noise I detected at Mallory Avenue, which is approximately 500 feet from the plant. This noise is caused by a large conveyor that carries the bones to the crusher. After the crushing, the crushed particles are discharged from it and this noise from the discharge causes an explosive sound. It would seem to me from my investigation that all these complaints of the different members of our department who are here, that the complaints of these people are justified and that the City Commission should take some action which would give them some relief.

By Counsellor Rooney:

Q. Where did you first pick up that odor on July 25?

A. West Side Avenue and Fisk Street, approximately 1,200 feet from the plant.

Q. Where do you live, Inspector?

A. Delaware and Duncan Avenue.

Q. How far from the plant?

A. About one mile.

Q. Did you observe this odor at your home?

A. Not at this time. I found it at my home 10 o'clock one night and investigation brought me to this plant and I discovered it came from that. There was a prosecution in the courts upon the condition that prevailed there at the time.

Q. Was there prosecution?

A. Yes, sir, and they were fined twenty-five dollars.

By Commissioner Quinn:

You men and women have heard what has been said. While we would like to extend the courtesy of adjournment, we feel that your company has had ample time.

By Counsellor Nemser:

I think the company should have an opportunity to appear and explain their side.

By Commissioner Quinn:

If they have not engaged counsel before this time, that is their fault. It has been customary that when we exercise our police powers we have been accused of using czaristic measures. We are going to change this. We are going to have our Law Department make application to the Chancery Court to have this condition discontinued, restrain those people from continuing the nuisances. We hope that you people will have relief in the very near future.

In conclusion Commissioner Quinn moved that the matter be referred to the Law Department for the purpose of proceeding in Chancery Court.

Seconded by Commissioner Beggans and carried.

This time and place having been fixed by the Board of Commissioners for the purpose of holding a public hearing on the protest filed by residents and property owners in the vicinity of 61-61½ Bowers Street, against the nuisances and odors created by the operation of a pet shop at said location, the City Clerk called for anyone who might desire to be heard.

A large delegation of residents and property owners in the vicinity appeared and through Counsellor Samuel Pesin supplemented their written protest.

Mr. Pesin stated that the establishmen is more of a zoo than a pet shop; that as many as eighty dogs are kept in the place and the noise and odors are unbearable; that cats, monkeys, birds etc., were housed in the place; that it is a residential section and that one of the buildings is being operated for the business, contrary to the building permit which was granted for it; that it was supposed to be a sun parlor and instead was converted for business, which is a violation because a frame building cannot be used or altered for business purposes, unless there are two stores adjoining said premises, one on each side.

Several of the property owners and residents stated that it is impossible to sleep at night and keep their windows open because of the terrible odors.

Inspector Daniel Sullivan of the Health Bureau stated that this complaint reached him about September of last year; that several inspections have been made of the premises at 61 Bowers Street; that on those particular dates the inspector reports there was no violation; that since receiving this petition he has caused an inspection to be made and finds that the owner occupies two buildings, 61-61½ Bowers Street and that at this time he might say that 61½ Bowers Street is accupied in violation of the zoning ordinance and that matter has been taken care of by the Building Department; that they have served notice on him to vacate 61½ Bowers Street. As regards 61 Bowers Street, this man does have a variety of animals in the place, 43 dogs, 5 monkeys, 6 cats, birds, turtle and a number of tanks of gold fish; that the general character of the complaint is apparently due to the odors from the animals and the way they are housed in the place, also due to the fact that these dogs which are coming out in the yard when anybody approaches the premises, or a stray cat, all these dogs set up a howling in unison; that the premises according to outline, is located in a residential district; that in regard to the violations which we have found, we too, have served notice on him to abate them; that while we don't have any license proposition for them, we have to treat them as nuisances and served notice on him to abate them; that it is not within the province of the Health Department to order him out of the building, but we can order him to abate those nuisances and that we have done.

Mr. Harry Breves, owner of the establishment, appeared and stated that the complaint is just sort of a grudge and that there is nothing out of the way as far as cleanliness is concerned.

Commissioner Potterton stated that it is very evident that these people would not come down here in so great a number unless there was some justification to their complaint; that from the description of the business, he thinks that it is a business that should not be carried on in that section of the City; that he believes the City Commission should and he is equally sure that they will take steps to abate that nuisance and grant the relief that the people seek.

By Commissioner Fagen:

I move that the Commission request the Board of Health to take all necessary action to look into the abatement of the complaint and the nuisances that exist at this man's place.

Seconded by Commissioner Potterton and carried.

Commissioner Quinn stated that the Board of Commissioners will do every thing in its power to help the residents and property owners in the section.

HEARINGS:

This time and place having been fixed by the Board of Commissioners and public notice advertised for the purpose of holding a public hearing in connection with the application made to the Board of Utilities Commission of New Jersey by the United New Jersey R.R. and Canal Company, owner and the Pennsylvania R.R. Company, lessee, and the New York Bay R.R. Company, for the elimination of the grade crossing of said railroads of West Side Avenue at West Newark Avenue, the Highway Commission of the State of New Jersey joins in the application, Commissioner Fagen advised the Board that he had caused notices to be posted throughout the vicinity affected by said application, giving notice of the hearing. Threupon the City Clerk called for anyone who might desire to be heard.

A large delegation of residents and property owners of that vicinity appeared before the Board.

Commissioner Fagen explained in detail the purpose of the application.

Rev. Auriemma, representing Mount Carmel Church, Broadway, opposed the application because of the fact that it would make it impossible for the members of his church to conveniently reach the church.

Mr. Frank Verga stated that his organization had issued 1,000 circulars and held a meeting, attended by a very large delegation of residents and property owners of that section and that they are interested only in the crossing of West Side Avenue, either elevated or underpass.

Mr. Garrison, for the Egan Waste Company, stated that his property is right at the corner where the gate is to be placed; that their property is situated between two dead end streets and the closing would seriously injure the sale price of his property; that it would also seriously hamper their trucking and would inconvenience their employees who would be forced to go several blocks out of their way to reach the plant.

Mr. Bayne, vice-president of the Mack Motor Car Company, stated that their property, in which they have invested a great amount of money, would be in a pocket if the application was granted; that their business depends on the ease with which automobiles can reach their plant for repairs.

Dr. Forman stated that he is ppearing with a delegation of business representatives from that section; that if the street is closed, the traffic will be thrown into Tonnele Avenue, a 14-foot street and the danger will be increased; that from a business standpoint, it will establish sort of a Mason-Dixon Line and the people will not be able to get to the West Newark Avenue shopping section.

The Mayor stated that everyone realizes that the present condition at that point is not very good; that the people must be protected; that in order to oppose the application, some plan that is sound and practical must be arrived at; that the section is very important, being an important thoroughfare leading to the network of highways; that it is one of our growing sections and we are not going to close that avenue and we are determined that it must remain open; that he will never agree to close West Side Avenue; that whatever action is taken, the property owners on the west side must be part of the transaction.

In conclusion the Mayor stated that the matter will be referred to Commission Fagen for the purpose of having the City Engineers make a further study and survey and plans, also for conferring with the Corporation Counsel.

By Mayor Hague:

Resolved, That it is the opinion of this Board that the elimination of grade crossing at West Side Avenue and vacating the same, would work a detriment to the property interests and immediate neighborhood, also making a dead end of West Side Avenue; be is further

Resolved, That the whole matter be referred to the Director of the Department of Streets and Public Improvements, so that he may cause the City Engineers to make a survey and study, looking to the practicability of elevating the railroad or for some other engineering solution that would eliminate the blocking up and dead ending of West Side Avenue, such survey and other data to be referred to the Corporation Counsel, who shall appear in behalf of the City against this application, and if the engineering bureau finds a practical way to elevate or otherwise solve the closing, the Corporation Counsel shall advocate the same before the Public Utility Commission.

Be it Resolved, By the Board of Commissioners of the Mayor and Aldermen of Jersey City, as follows:

Section 1. The $3,618,000 General Improvement Bonds and the $635,000 School Bonds, and the $106,000 Water Bonds, authorized to be issued by ordinances adopted by the Board of Commissioners on the 15th day of September, 1931, shall be sold upon sealed proposals, upon Friday, November 6, 1931, at 11 o'clock, a. m., pursuant to notice to be published as required by law. The Director of the Department of Revenue and Finance is hereby authorized to cause notice of such sale to be published and to receive sealed proposals for said bonds, and the power of the Board of Commissioners to award the bonds and reject bids is hereby delegated to him.

Section 2. The notice of sale of the bonds shall be in substantially the following form:

NOTICE OF SALE
CITY OF JERSEY CITY,
NEW JERSEY
$4,359,000 BONDS

Sealed proposals will be received by the undersigned at the Assembly Chamber in the City Hall, Jersey City, New Jersey, until Friday, November 6, 1931, at 11 o'clock, A. M., when they will be publicly opened, for the purchase of bonds of the City of Jersey City of the following authorized issues:

$3,618,000 General Improvement Bonds, maturing $130,000 of bonds on October 1st in each of the years 1932 to 1937, inclusive, and $129,000 of bonds on October 1st in each of the years 1938 to 1959, inclusive; and

$635,000 School Bonds, maturing, $26,000 of bonds on October 1st in each of the years 1932 to 1941, inclusive, and $25,000 of bonds on October 1st in each of the years 1942 to 1956, inclusive; and

$106,000 Water Bonds, maturing, $3,000 of bonds on October 1st in each of the years 1932 to 1961, inclusive, and $2,000 of bonds on October 1st in each of the years 1962 to 1969, inclusive.

All of the bonds will be of the denomination of $1,000 each, will be dated October 1, 1931, and will be coupon bonds, registerable as to principal only or as to both principal and interest. Principal and interest will be payable in gold coin of the United States of America of or equal to the present standard of weight and fineness at the office of the City Treasurer of Jersey City. The bonds will bear interest, payable semi-annually on April 1 and October 1.

The bonds will bear interest at the rate of four and one-quarter per centum (4¼%) per annum. However, if the bids received do not permit the award of any of the issues of bonds as 4¼% bonds, the bonds of such issue shall bear interest at such higher rate as may be named by the successful bidder. The rate named must be a multiple of one-quarter of one per centum per annum, and must be the same for all of the bonds of such issue. In awarding the bonds of such issue, only the proposals naming the lowest rate named in any proposal for such issue will be considered.

Bidders, in submitting their bids, must use the bidding forms which will be furnished by the undersigned upon request.

The amounts necessary to be raised by the sale of the $3,618,000 General Improvement Bonds and the $635,000 School Bonds and the $106,000 Water Bonds, respectively (exclusive of the amount of any interest accrued on the bonds), are the maximum authorized amounts of these issues, respectively, stated above, and no more bonds of any one of said issues will be sold than will produce the amount necessary to be raised by the sale of such issue (exclusive of accrued interest) plus an additional sum of less than $1,000 for such issue. If less than the maximum authorized amount of any issue is sold, the unsold bonds of that issue will be those last maturing. The bonds of each issue will, unless all bids therefor are rejected, be sold to the bidder or bidders complying with the terms of sale and offering to pay not less than the amount necessary to be raised by the sale of such issue (exclusive of accrued interest) and to take therefor the least amount of bonds of such issue, commencing with the first maturity, and if two or more bidders offer to take the same amount of bonds of the same issue, then the bonds of that issue will be sold to the bidder or bidders offering to pay therefor the highest additional price (such additional price being less than $1,000).

The bonds will not be sold for less than par and accrued interest. In addition to the price bid, the purchaser must pay accrued interest from the date of the bonds to the date of payment of the purchase price.

Proposals should be addressed to the undersigned at the City Hall, Jersey City, New Jersey, and enclosed in a sealed envelope marked on the outside, "Proposals for Bonds," and must be accompanied by a certified check for two per centum (2%) of the face amount of the bonds bid for, drawn upon an incorporated bank or trust company, to the order of the City of Jersey City, to secure the city against any loss resulting from a failure of the bidder to comply with the terms of his bid. Checks of unsuccessful bidders will be returned immediately upon the award of the bonds. The bonds will be delivered at the office of the Trust Company of New Jersey, Bergen and Sip Avenues, Jersey City, New Jersey, on or before December 7, 1931, at 11 o'clock a. m., and must then be paid for by a certified check upon an incorporated bank or trust company. No interest will be allowed upon the amount of the check of the successful bidder. The right is reserved to reject any or all bids, if it is considered for the best interests of the city so to do.

The successful bidder will be furnished with the opinion of Messrs. Reed, Hoyt & Washburn, of New York City, that the bonds are valid and binding obligations of the City of Jersey City. The bonds will be prepared under the supervision of the Trust Company of New Jersey, which will certify to the genuineness of the signatures of the officials and the seal impressed on the bonds.

HEARINGS

At this time a delegation of members representing the Hudson County Dental Society appeared before the Board and protested the further erection of any signs in the Journal Square section by dentists, stating that they understand that Dr. Rosenberg contemplates five signs, and a new man, Dr. Owens, contemplates the erection of two signs.

Dr. Prendergast stated that the society has been campaigning against this for two or three years and that there is a bill in the course of preparation to be passed by the legislature that will automatically take care of this form of advertising; that they desire to elevate the dental profession the same as the medical profession.

Several of the members of the society also spoke against the proposed erection of the signs.

By Commissioner Fagen:

I move that the matter of these applications in the Building Department be referred to the Corporation Counsel for his advisory opinion to the Commission as to what proper action this Commission should take in view of the protests of the Hudson County Dental Society against the granting of permission to the applicants on these applications before the Building Department.

By Commissioner Quinn:

Whereas, on October 10, 1931, through an error a duplicate bill for 1931 tax was made on a 1930 tax bill, for Margaret Kirkpatrick, owner of property known as lot 44 in block 696, commonly known as 211 Beacon Avenue, and on said date she paid the sum of $53.24, namely: $48.62 for the principal plus $4.62 interest, as entered in cash book "A2," page 574, for the year 1930; and

Whereas, before the Tax Collections were closed for that day's business, it was discovered that the above mentioned payment was intended for the first half 1931 and because of this discovery, the entry made in the 1930 cash book was stricken out by the City Collector and City Comptroller's Office and an entry was made in the 1931 cash book, namely: $48.62 for the principal plus $1.23 accrued interest, or a total of $49.85, causing a refund of $3.39 in interest, which was returned to Margaret Kirkpatrick; and

Whereas, the City Collector has decided to prepare this resolution in order that the books of his office and City Comptroller's Office will show the reason why the entry in the 1930 cash book was transferred to the 1931 cash book; therefore be it

Resolved, upon the recommendation of the City Collector and City Comptroller that a proper notation be recorded alongside of entries in the 1930 and 1931 cash books, so that when the Auditors check the books they will understand the reason for same.

Whereas, on October 10, 1931, the said John Verga paid the sum of $261.34, namely, $246.54 for the principal, plus $14.80 accrued interest, for the second half 1930 taxes against property known as lot 18 in block 1611 on Westside Avenue as entered in cash book "A," page 574; and

Whereas, subsequently the Hudson County Board of Taxation, per Judgment No. 1597, reduced the valuation of said property $800, or $30.35 in taxes, thereby causing an over-payment in the sum of $30.35; therefore, be it

Resolved, That a warrant be ordered drawn in favor of John Verga in the sum of $30.35, charging the same to 1930 taxes.

Whereas, subsequently the Hudson County Board of Taxation, per Judgment No. 2185, reduced the valuation of said property $1,900, or $73.90, less $1.10 excess rebate allowed at time of full payment of taxes, thereby causing an over-payment in the sum of $72.80; therefore, be it

Resolved, That a warrant be ordered drawn in favor of the West Side Building and Loan Association in the sum of $72.80, charging 1931 taxes with $73.90 and credit 1931 rebate account with $1.10.

Year	1927	$181.78
Year	1928	196.63
Year	1929	204.73
Year	1930	223.79

Whereas, The said lot 21 in city block 642 being at 393 St. Paul's Avenue, Jersey City, owned by Helen C. Coughlin, part of said property was condemned by the State of New Jersey for highway purposes by petition filed November 21, 1925, pursuant to which petition the State Highway Board was entitled to immediately enter upon and into possession of said lands and premises; and pursuant to which petition the State Highway Department did order the owners who maintained a coal business on the premises to vacate the same which they did vacate on December 13, 1927; and pursuant to which petition the said Highway Department actually started the demolition of the structures upon said premises during the week of December 13, 1927, since which time they exercised every right of ownership over practically one-third of the entire premises; and

Whereas, The Tax Assessor of Jersey City through inadvertence caused the real estate taxes against said premises to be levied against said premises for the years 1928 and 1930 inclusive without apportionment.

Whereas on July 29th, 1931 Engine No. 13 of the Fire Department of this City, which was in charge of Captain John B. Donnellon and operated by Fireman Albert Warner, was backed into a standing bus owned by the Ladney Bus Company; and

Whereas said Ladney Bus Company instituted suit against Albert Warner in the Bayonne District Court and recovered a judgment in the said court in the sum of $204 and $14.63 costs; and

Whereas the Captain in charge of said Engine No. 13 has reported to this Commission that the said Albert Warner, the operator of said engine, in reversing same did so to escape the effects of an explosion in another burning bus and thereby assisted in saving the lives of the members of the engine crew who were on same, and also in saving the property of this City; and

Whereas the members of this commission are of the opinion that to hold the operator of said Engine No. 13 personally responsible would be penalizing him for his good judgment in saving the property of this City and the lives of the members of his crew; and

Whereas the plaintiff, Ladney Bus Company, has signified its willingness to accept $175 in full settlement of said judgment and costs; therefore be it

Resolved, That the City assume the payment of the aforementioned sum of $175, and the proper officiers of this City are hereby authorized and directed to pay said sum of $175 in full settlement of said judgment and costs upon receipt of the proper and necessary legal papers fully releasing said claim.

"An ordinance providing for the licensing of auctioneers and the regulation of auction sales,"

the City Clerk read the public notice and the ordinance and then called for anyone who might desire to be heard concerning the proposed ordinance.

George J. Baumann appeared before the Board and stated that he represents the Central Avenue Business Men's Association, who are highly in favor of the proposed ordinance, also that the Chamber of Commerce held a meeting yesterday with the retail merchants and it was decided unanimously in favor of the ordinance and want to commend the Commission for its action, also they felt that there was no necessity for a delegation to appear this morning.

The City Clerk read a communication from the Chamber of Commerce stating that after careful consideration of the ordinance, the retail merchants' committee of the Chamber of Commerce, in conference with the officials of the various retail merchants' organizations throughout the city have asked that this committee go on record in favor of the ordinance and commend the City Commission for their action.

Mr. H. J. Bauridel, S. T. Fairbanks, Sidney Block and Mr. James Henley, auctioneers, appeared and stated that while they are in accord with most of the conditions in the ordinance, they had some suggestions to make and conditions which should be included in the ordinance.

The Mayor stated that he would prefer to have the various business interests represented so that the Board can determine just what attitude they have toward the ordinance; that he would suggest copies of the proposed changes recommended by the auctioneers present, be submitted to the Chamber of Commerce and the various business men's associations, so that they may familiarize themselves with the conditions for the next hearing. He then moved that the hearing be adjourned and continued to Tuesday, May 3, 1932, at 10:30 a. m. (Daylight Saving Time), in the Assembly Chamber, City Hall, Jersey City, N. J.

CITY ORDINANCES:

Hearing on the final passage of an ordinance entitled "An Ordinance providing for the licensing of auctioneers and the regulation of auction sales," having been adjourned and continued to this time and place, the City Clerk read the public notice and ordinance and called for anyone who might desire to be heard either in favor of or against the passage of said ordinance.

The following persons appeared and urged the adoption of the proposed ordinance:

Mr. Edwin Lord of the Chamber of Commerce, George J. Baumann, representing the Central Avenue Business Men's Assn., Fred Warncke, representing the Bergen Avenue Business Men's

Assn., James F. Murray, representing the Business Men's Assn. of Jersey City, Counsellor Ezra Nolan, representing the Monticello Avenue Business Men's Assn.,, Counsellor M. Epstein, representing the Jackson Avenue Business Men's Assn., Counsellor Samuel Pesin, for the Central Avenue merchants, Mr. Alfred A. Bock, representing the Central Avenue merchants, all of whom urged the Board to adopt the ordinance for the protection of the community, the people, and the established merchants who pay taxes to the City and are always ready to cooperate with every civic or charitable movement.

The following named persons appeared in opposition to the adoption of the ordinance as proposedl and suggested changes and corrections: Sidney S. Block, auctioneer, Mr. Bauridel, auctioneer. Mr. Block submitted a written resume of his opinion and the suggestions for amendments.

The Board discussed the ordinance at length with the delegation present and Commissioner Quinn stated that for many years the Commission has been receiving complaints about the fly by night merchants and auctioneers; that the Mayor and members of the Commission have given this matter a great deal of study and felt that an ordinance similar to the one proposed, should be passed; that after hearing the discussions pro and con and hearing from the representative of the Law Department, he does not think the Commission has changed their views as to the adoption of the ordinance; that the Mayor has shown a great deal of interest in the matter and being unable to attend the meeting, has expressed his views in writing. Thereupon the City Clerk read the Mayor's communication which stated that while he is head of the city government, he shall continue his efforts to oppose and discourage attempts to open establishments which are unfair to our merchants and tend to deceive the public as to price and quality of goods, and strongly urging the Commission to adopt the ordinance.

Thereupon Commissioner Beggans moved the passage of the following ordinance:

Seconded by Commissioner Fagen and carried.

Counsellor James F. Murray stated that the various suggestions and amendments made by Mr. Block and Mr. Bauridel can at some future time be taken up and considered in an amended ordinance.

By Commissioner Beggans:

Resolved, That the following ordinance do now pass:
